

William Witt, DDS, is ACORN Clinic's Volunteer of the Month for July. A volunteer for over 20 years, Dr. Witt continues to lend a helping hand at ACORN.

Witt says that he helps to provide "continuity to the clinic".

While Dr. Bhakta was on her 6-week maternity leave, Witt provided unparalleled knowledge and experience to help in her absence.

Witt loves working with the students the most. He likes how closely he is able to influence and bolster their knowledge in the shared passion of dentistry.

Now 'semi-retired', Dr. Witt continues to serve his community. He volunteers on a rotating basis at ACORN and provides off-site HeadStart screenings in 4-5 counties.

Dr. Witt volunteers with the UF College of Dentistry and provides his input on dental issues by serving on the Alachua County Oral Health Coalition and the Alachua County Dental Society. No matter how many patients and committees need him, Dr. Witt always finds time for his family and a good game of golf.
