

March 2016: William Robinson

What does the world of finance and ACORN Clinic have in common? William Robinson.

Robinson came to us after a long and successful career in the financial industry. For the past nine months, he has assisted us in creating a financial model we will use in budgeting, program planning, and grant applications. His work will play a strategic role in helping ACORN clinic assist as many patients as possible with the best care and support.

“When I can help, I like to help,” Robinson said. “I had a skillset and ACORN had a need, so it was just a matter of finding each other.”

Additionally, Robinson loves seeing the impact the clinic has on the community.

“I think when you go in and see how busy the clinic is just goes to show that it is well received by the people of the communities in which it serves,” he said.

When he’s not helping us create budgets or financial models, Robinson immerses himself in a variety of hobbies. Between volunteering, woodworking, building model ships, golf and reading, there is never a dull moment in Robinson’s life.

We’re so thankful to have someone like William on our team. Thank you for all that you do!
